Summary of High Wind Reports on December 30, 2021

Strong and Damaging Winds occurred in and near the Foothills Thursday morning through Thursday afternoon. Wind gusts from 70 to 100 mph occurred in some areas with a few gust from 110 to 115 mph. The strong winds fanned a few grass fires near Boulder which grew to 6000 acres by Thursday evening. Unfortunately several homes and some businesses were destroyed by the fires.
